

IRREFUTABLE EVIDENCE AE911TRUTH, IC911JUSTICE AND LAWYERS COMMITTEE
APPARENTLY DO NOT KNOW OR CHOOSE TO IGNORE

Many dates will be conclusively confirmed in Court Ordered Discovery and additional names. The Plaintiffs have enough names for certain parties to be added as defendants and know exactly where to aim an intensive court ordered discovery for interrogatories, depositions, production of evidentiary documents for litigation.

1971: Construction was halted on WTC 1 North Tower and WTC 2 South Tower. The reason was the 1969 NEPA (National Environmental Protection Act) banned the use of asbestos. At the time, the steel and roof were in place on WTC 1 North Tower. The steel erection on WTC 2 was slightly over 50% complete. Had the asbestos been addressed then, the projected cost was \$1 billion; the Twin Towers cost \$900 million.

1987: PANY&NJ v Allied Corporation lawsuit filed in New Jersey State Court, Law Division, Newark NJ. Plaintiffs lost the lawsuit in part due to “failure to act timely” for 16 years.

October 1990: A 15-year old Kuwaiti girl Nayirah, tearfully told the Congressional Human Rights Caucus about Iraqi atrocities she saw in a Kuwait hospital. She did not disclose her last name. She did not see anything, is the daughter of the then Kuwait ambassador to US Saud Nasser Al-Saud Al-Sabah. Her father made false statements before the same Caucus and did not disclose that Nayirah is his teenage daughter living with him in the United States.

The matter was investigated, and it was disclosed that the public relations firm of Hill & Knowlton coordinated this false message to Americans on behalf of “Free Kuwait”.

In the aftermath of the Gulf War, the Nayirah testimony came to be regarded as a classic example of **modern atrocity propaganda**.

September 11, 2001 was exactly the same and will be proven in Court before a Jury.

The United States and George H W Bush Administration were completely untruthful. First, US oil companies and the Kuwaitis had stolen a large amount of oil from the Iraq Basra oil field with “slant” or “directional drilling” methods. Saddam Hussein was claiming \$6 to \$7 billion was due. Second, former US ambassador April Glaspie informed Hussein that “the United States has no interest in an Arab-Arab dispute”. Even before Saddam Hussein ordered his army to invade Kuwait and collect what was due, the George H W Bush Administration had US Special Forces in the Persian Gulf posing as Kuwait Navy and firing on Iran and Iraq positions to stir up tensions. Those US Special Forces soldiers were in action months before Saddam Hussein and the Iraq army took military action and entered Kuwait.

After the Karl Schwarz book was published in 2004 and matters of US policies and fabricating wars was discussed many times on radio shows, a former US Special Forces soldier contacted Schwarz and requested a meeting in Georgia. At the time, Schwarz was living in Alpharetta GA and drove to meet with this former member of Special Forces. What is stated in previous paragraph was confirmed by this former soldier and Pentagon sources for Schwarz verified to him that is was all true, including black op names and dates before Iraq invaded Kuwait to collect the claimed oil theft debt. Such information is hidden so Americans could not know what was done to create a needless and illegal war of aggression. By international law definition, that was a war crime by the George H W Bush Administration.

After the Desert Shield and Desert Storm were levied upon Iraq, George H W Bush made several remarks that infuriated people that knew what really happened. First, “Saddam, get out of Kuwait!” Secondly, after Desert Storm, “Now we can see a New World Order coming into view”. Lastly, “If Americans knew what we did, they would chase us down the streets and lynch us.”

The harsh sanctions levied on Iraq, killed an additional 500,000 to 600,000 people in cruel ways and many were innocent elderly men and women, and many children. The US “shock & awe” application of excessive use of Depleted Uranium, “DU” left a legacy of high spikes in cancer. The use of DU weapons was banned many years ago by the United Nations due to being “a weapon of indiscriminate harm” because the death toll increases long after real combat was ceased.

Years later, the Clinton Administration Secretary of State Madeline Allbright was asked about this legacy of harm inflicted on another nation. She stated to Leslie Stahl on TV “we think it was worth it”.

In the lawsuit being prepared by our group there are no Saudi defendants, 1 Kuwaiti directly related to Nayirah and her father, and 1 other Muslim that earned the nickname “The Butcher of Bosnia”. The historical record now claims a former Serbian general is now referred to by the same nickname but that is not true as readers will see below regarding events in 2006.

March 18, 1991: TIME magazine article by George J. Church titled “Soviet Union: Operation Steppe Shield?”. This article revealed that even prior to that time the George H W Bush Administration was developing a contingency plan to invade the USSR in what is now called the CIS region. That is the region referred to as “the Steppes”. Some of the nations now comprising the CIS are Kazakhstan, Uzbekistan, Turkmenistan and even the Autonomous Republic of Dagestan, chose to remain part of the Russia. These nations contain vast oil and natural gas resources. That was a plan to seize that area by force. The purpose of September 1, 2001 was after the exact same prize of which Afghanistan is a key part due to its energy and natural resources and the need for pipelines to get oil and natural gas to ocean ports.

<https://time.com/archive/6717297/soviet-union-operation-steppe-shield/>

When the CIS formally separated from the former USSR, the Plaintiffs have a list of US companies and names of who went rushing to seize as much control over oil, natural gas and energy related services as they could grab. What has been standing in the way from Day 1 is the Taliban. The United States is not welcome in Afghanistan for political and historical reasons. An Argentina company was way ahead of the United States and they were welcomed by the Taliban. See 1992 to 2006.

1991 Desert Storm: There was a noticeable pause on launching Desert Storm that the US has refused to address or explain. In researching the Schwarz book “One Way Ticket to Crawford Texas” the reason was discovered well before September 11, 2001.

A rheumatologist that was still in USAF Reserve, was rushed to the Middle East area to determine why many of the US Navy personnel in an aircraft carrier strike group were suffering from arthritic like symptoms and unable to fulfill their duties. The cause was WMD vaccines for smallpox and anthrax. That carrier strike group had to return to port and replaced with another strike group. This matter came up again in 2003 when Canada Prime Minister refused to commit Canadian troops to Bush’s Iraqi Freedom.

1991: PANY&NJ, Trans-Hudson Corporation v Affiliated FM Insurance, et al filed in New Jersey US District Court, Newark NJ. This litigation was seeking \$6 billion from the insurers to reimburse for asbestos remediation in the top 10 floors of offices in WTC 1 North Tower. The

main tenants on those floors were Cantor Fitzgerald, Marsh McLennan, Nishi Nippon Bank, and Mitsui Bank. The PANY&NJ plaintiffs were seeking \$4.5 billion for asbestos removal and remediation and the balance was for the 3 airports serving the area Kennedy, La Guardia and Newark. The Plaintiffs lost the lawsuit in part due to “failure to act timely”. The 1987 Allied lawsuit is cited in the final order, again a “failure to act timely” issue.

What was odd about this huge lawsuit is the PANY&NJ used in-house attorneys rather than retain a major and experienced law firm in such litigation.

January 1992: Bidas Corporation of Argentina signs oil and gas development agreement for exploration rights for Yashlar block in eastern Turkmenistan, 50-50 split on revenues. US energy companies coveted getting control of this tract.

February 1993: Bidas Corporation signs second agreement for oil and gas development with Turkmenistan on the Keimir Oil and Gas Block in western Turkmenistan, 75-25% split on revenues in favor of Bidas. US energy companies coveted getting control of this tract.

February 26, 1993: WTC 1 North Tower is bombed. It came out in the trial that the FBI had directly and indirectly aided and abetted that crime. An FBI asset that was recruiting the bomber was recording his conversations with FBI handlers that were providing the necessary materials for the bomb.

During the 1990's, ENRON was trying to get a pipeline done from Turkmenistan thru Afghanistan, across Pakistan and into New Delhi and further south to Dabhol India. That project failed at some point and the US lost approximately \$1 billion in guarantees.

1995: Bidas commences negotiations with the Taliban.

1995: Unocal, Delta Oil and US Government attempting to pressure Taliban to abandon contract negotiations with Bidas and pressure Turkmenistan regarding Bidas contracts.

October 1995: President Niyazov (Turkmenistan) signs agreement in New York with Unocal/Delta Oil (Saudi investors). Turkmenistan starts jerking Bidas around on its Oil Contracts with that government.

Jan. 1996: Bidas signs agreement with Taliban and General Dostum for Trans-Afghanistan pipeline, generically referred to as TAP.

Feb. 1996: Bidas v. Unocal, Delta Oil, et al, \$15.0 billion interference of contract lawsuit filed in Fort Bend Texas. Dismissed, was appealed to Texas State Court of Appeals. One of the co-owners of Delta Oil is Khalid bin Mahfouz, the brother-in-law of Osama bin Laden. In short, the Saudis were business partners in what the US objectives and intentions were regarding the TAP and Afghanistan. Not named as defendant was the United States government and certain instrumentalities and proxies thereof for initiating, aiding and abetting that interference of contract.

March 1996: U.S. Ambassador to Pakistan, Tom Simons, urges Prime Minister Bhutto to give exclusive rights to Unocal. Bhutto offended and demands apology.

November 1997: Unocal tries to woo Taliban away from Bidas and are rejected by Taliban. This also included rejection of Saudi controlled Delta Oil.

November 21, 1997: The company pretending to be the WTC security company was Securacom of New Jersey. That firm was sued for trademark violation and the Defendant Securacom

lost. It was appealed twice to keep the matter tied up until the 1997 final order from US District Court Newark and until 2000 on 2 appeals at Third Circuit US Court of Appeals in Philadelphia. The real WTC security company was based in Delaware, registered as a foreign corporation in 16 states years before use of the name Securacom. In all 16 states and Delaware the real WTC security company predates Securacom by years. Many of those registrations and names are named defendants in the lawsuit the Plaintiffs are bringing against the US government and other entities and persons.

The opening statement of the US District Court judge in the final order of the Newark NJ lawsuit is as follows:

“This action in one of its aspects is for trademark infringement and unfair competition brought under the Lanham Act and the statutes and common law of the State of New Jersey. In another disturbing aspect, this action is part of the ruthless abuse of the litigation process by an arrogant venture capitalist and his investment vehicle to prevent a trademark claimant from seeking to pursue his rights under his trademark. November 21, 1997.”

The arrogant venture capitalist was a direct stakeholder and shareholder in the real WTC security company while the Securacom charade was going on to conceal its real identity. The lawsuit records and corporate records are clear as to who was involved in 16 states. The person the US District Court judge is referring to is related to Nayirah al-Sabah and a close friend and co-investor with the Bush Family.

Aug. 1998: Clinton launched cruise missiles at Afghanistan. Al Qaeda or bust up that Bidas contract? Zalmay Khalilzad involved in Bosnia, Afghanistan and interference of contract aimed at blocking Bidas until the United States could create a reason to attack Afghanistan if all else fails.

Oct. 1998: A Texas judge dismisses Bidas' US\$15 billion lawsuit against Unocal and Delta Oil for preventing them from developing gas fields in Turkmenistan.

Texas State Court dismisses the Bidas lawsuit. The Argentina company appeals to the Texas State Court of Appeals.

August 1999 – April 2000: Chechnya War 2; Main phase: 7 August 1999 – 30 April 2000, (8 months and 24 days)

Insurgency phase: 1 May 2000 – 16 April 2009, (8 years, 11 months and 15 days). This included both Clinton Administration and Bush Administration.

After Chechnya realized that it was the CIA and their proxies that were stirring up the problems, in Chechnya War 2 that region aligned with Russia Federation and they won the war. However, as revealed at Kiev Maidan 2013-2014, it was about to start again as an overall “anti-Russia agenda” by the United States.

November 1999: Karl Schwarz, author of 2004 book “One Way Ticket to Crawford Texas, A Conservative Republican Speaks Out” meets 2 men of Bidas Corporation. The entire details of Turkmenistan, Afghanistan, Pakistan and Port of Gwadar, Balochistan are revealed and the lawsuit matters in State of Texas, Bidas v Unocal, Delta Oil, et al, \$15 billion interference of contract. Those details included the change of strategy for arbitration claim that amounted to \$495,000,000 in reimbursement due to US and proxies, Unocal, and Saudi controlled Delta Oil interference.

1999: Former Vice Chairman of House Armed Services, and Chairman of a subcommittee overseeing a \$180 billion per year defense research budget had completed what is referred

to as the Fusion meta-data software. Every US agency wanted it, except the CIA. The Plaintiffs in this action know that the CIA had already polluted the meta-data to create the cover story that “radical Islamic males were going to attack the US with hijacked commercial jets”. The Schwarz book “One Way Ticket to Crawford Texas” addressed this sort of CIA meddling in Chapter 8 titled “Planting Weeds in America’s Rose Garden”.

1999: FBI counterintelligence had detected that the CIA was illegally operating inside the United States and using a Saudi GDI office in Los Angeles CA to do so. Probably due to FBI the CIA suddenly stops sharing crucial information with the FBI counterterrorism. Most of the alleged hijacker visas that were either declined at the Jeddah Saudi Arabia US Consulate office but overridden by the CIA, or were pushed through quickly by John Brennan while he was stationed in Jeddah.

2000: Bidas loses the appeal in Texas State Court of Appeals, seeks a review by the International Chamber of Commerce for damages due to contract interference that cost them a lot of money. That ICC awarded \$495,000,000 was due as reimbursement.

2000: CIA was operating drones over Afghanistan supposedly looking for Osama bin Laden, who was in Ladiz Iran and being treated for kidney failure at an Iran military base. Uzbekistan declined their request to operate Predator drones from that nation. Discuss the Ladiz matter with former Vice Chairman House Armed Services Committee Curt Weldon. He had learned to not trust the CIA and had his own intelligence sources.

April 2000: Pentagon conducts “mass casualty drill” due to a hijacked jet hitting the Pentagon. That simulation had full scale airplane parts in the interior Pentagon courtyard. A commercial jet cannot penetrate five rings of the Pentagon and be strewn in the innermost area of the Pentagon.

2000: In the 2000 Project for a New American Century (PNAC) document ‘Rebuilding America’s Defenses’ is the following recommendation. The Plaintiffs maintain that any decent, humane and sane person would read this part of the PNAC statement and wonder what sort of evil lurks in that group and those in Washington DC they have access to and influence. “The report states, **“advanced forms of biological warfare that can 'target' specific genotypes may transform biological warfare from the realm of terror to a politically useful tool”.**” There are now many illegal bioweapons labs positioned near Russia, China, in Africa and South America. They are being hidden on the Pentagon budget because testing on humans without clinical trial approval is illegal, as it should be. See 2012, Richard Lugar Lab, Tblisi Georgia.

June 5, 2000: The US District Court Newark NJ grants partial summary judgment against PANY&NJ in favor of many of the participants in Affiliated FM Insurance, et al. That statement is in the final order dated May 17, 2001.

2000: The two most common explosives used for controlled demolition are RDX and Gelitin. The RDX also has another use in detonating thermonuclear warheads, and is therefore heavily and carefully regulated by the US government. Most controlled demolition experts prefer Gelitin.

The Austria art group that was originally named “Gelitin” conducted a project they named “B Thing”. They apparently got permission from PANY&NJ to remove 1 window and extend a wooden balcony out of WTC 1, North Tower. They rented helicopters, took many videos from various angles, heights, etc. After that was done, all videos were surrendered / confiscated by someone. These events and the following are highly suggestive of foreknowledge that 9-11-2001 was going to happen on some date and WTC would be destroyed.

In addition to the “B Thing”, the website of Gelitin showed 3 men in WTC and there were boxes labeled “BB 18”. Those devices are fuse holders and used in controlled demolitions. The Plaintiffs have 2 such photos with the “BB 18” boxes in clear view. This group, whoever they are, later changed their name to Gelatin, which is not a powerful explosive used in controlled demolitions.

Furthermore, the Austria art group drew sketches of their exploits and posted them on their website. One sketch shows a WTC tower unharmed, a jet headed at the higher floors, and a handwritten comment: “Last chance to parachute.” Those photos are available if a person knows how they have now hidden them on their website.

Lastly, the “Gelitin B Thing” art work was scheduled to debut at a NYC art gallery on September 11, 2001.

2001: The original Bidas Corporation plan after signing 2 major agreements with Turkmenistan was the TAP (Trans-Afghanistan Pipeline) from Ashgabat Turkmenistan, through Afghanistan with approved and signed contracts with General Rashid Dostum and the Taliban. The TAP would have continued further south and southwest to the port city of Gwadar, Balochistan Province Pakistan on the Arabian Sea. At some point in 2001 and what appears to be well before September 11, 2001, China and Pakistan initiated negotiations on CPEC, the China Pakistan Economic Corridor that is part of the China Belt & Road initiatives around the world. The Belt & Road concept includes roads, rail and maritime to make the necessary interconnections. The CPEC is from Gwadar Pakistan thru that nation to China as a much shorter route from the Middle East and Africa than going all the way around India, Singapore, Southeast Asia, etc. to China.

January 20, 2001: George W. Bush and Richard B. Cheney sworn in as President and Vice President of the United States.

March 2001: Former President of Yugoslavia, Serbian Slobodan Milosevic was arrested and charged with genocide and war crimes for the slaughter of Bosnian Muslims. The exact opposite was true. The United States was arming Bosnia Muslims to slaughter Christians in Bosnia and Serbia to justify the US and NATO bombing of Serbia in 1999 during the Clinton Administration. Until the US and others started trying to re-write history to conceal crimes, former Afghan Zalmay Khalilzad, former US State Department, directly involved in trying to upend that Bidas Corporation achievements in Turkmenistan, Afghanistan and Pakistan earned the nickname “The Butcher of Bosnia”. Bush appointed him as US Envoy to Afghanistan and later the same role in Iraq after the 2003 invasion that Bush and many others literally fabricated exactly as the George H W Bush Administration did in 1990-1991 as Desert Shield – Desert Storm. See March 2006.

Due to the extensive use of DU weapons by the United States and NATO, Serbia has experienced significant spikes in cancer cases as happened in Iraq after Desert Storm 1991.

Spring 2001: The US Army 10th Mountain Division is mobilized to train for invasion of Afghanistan. The first military engagements against the Taliban after October 7, 2001 were 10th Mountain, Green Berets, and CIA Special Activities Division. The Plaintiffs have uncovered information that CIA Special Activities Division was active in Afghanistan prior to September 11, 2001.

Exact date on this matter to be verified in court ordered discovery. Supposedly the CIA’s Alec Station was conducting a huge effort to find Osama bin Laden. A CNN crew found him and interviewed. An ABC crew found him and interviewed, yet the CIA failed to find him. When the whole truth about

September 11, 2001 is known, why the CIA failed to find Osama will be clear to see for much of the world.

Late Spring 2001: Donald J. Rumsfeld and CENTCOM General Tommy Franks are before Armed Services Committee. When asked what the primary mission in Afghanistan General Franks quickly stated: “the pipeline and access to the regions resources”. Rumsfeld quickly intervened to change the subject to Osama bin Laden and “fighting terrorism”.

April 1, 2001: US Navy EP-3E reconnaissance plane collides with Chinese fighter jet and the EP-3E is forced to land on Hainan Island. China stripped the plane of sensitive US military technology. It is very likely that the US military had to change a lot of equipment to different modes and models, so China could not use US technology to spy on the US. If that did in fact happen and FAA radars were not upgraded, some planes equipped with new hardware and software would have been invisible as of September 11, 2001 to anything not able to detect the new versions. Such a quick upgrade may well be where much of the missing \$2.3 trillion disappeared to from the Pentagon.

The Plaintiffs are aware of the multiple NORAD hijacking drills and other matters. Those will be dealt with in court ordered discovery and trial.

April 2001: Persons in the Pentagon wanted to conduct another “mass casualty drill” regarding a jet hitting the Pentagon. That was not approved due to being “too unlikely”.

May 17, 2001: PANY&NJ, Trans-Hudson Corporation lose the \$6 billion asbestos lawsuit.

May 2001: Bush appointed former Texas Supreme Court judge Priscilla Owen (nee Redman) to Fifth Circuit US Court of Appeals. That court just happened to be where the Bidas Corporation appeal was pending to enforce a \$495,000,000 million ICC (International Chamber of Commerce) arbitration award. Note April 21, 2006 the name Owen in the PDF of the final order. She is the same judge that Senator Patrick Leahy intentionally delayed her confirmation hearings until after Bidas prevailed at Fifth Circuit US Court of Appeals on September 9, 2003. She has now returned to her maiden name Redman. See late August 2003.

Early June 2001: Secretary of Defense Donald Rumsfeld modifies the ROE (rules of engagement) for US jets confronting hijackings, enemy jets, or other unauthorized penetrations of US airspace. Deleted was the hostile armed approach of follow orders of be shot down. Only option jet fighter pilots had on September 11, 2001 was come up from behind, follow and intervene only if ordered to do so.

July 24, 2001: Larry Silverstein and Australia real estate developer Frank Lowy, now resides in Israel, sign 99-year lease on World Trade Center. Note for the record that the \$4.5 billion the PANY&NJ were seeking to fix the asbestos problems was the “magic number” that Lucky Larry got for the “two terrorist attacks” on WTC 1 and WTC 2. It was a terrorist attack, but not by Saudis or “radical Islamic males”.

August 2, 2001: Bush renews negotiations with Taliban to take over the Bidas accomplishments while the Argentine firm is tied up in US courts. The negotiations are more like threats and Taliban declined.

August 6, 2001: Bush asleep at the helm regarding President’s Daily Briefing [PDB] and attack on U.S.

September 9, 2001: The most powerful and respected warlord in Afghanistan, Ahmad Shah Massoud, a Pashtun, was assassinated by a camera crew. That Jordanian crew was recruited by the CIA. During the Russia-afghan War 1980-1988, Russia nicknamed Massoud "The Lion of Pansjhir". Massoud had already informed the United States they were not welcome in Afghanistan.

September 10, 2001: "Most experts agree that the Caspian Basin and Central Asia are the keys to energy in the 21st century", said energy expert James Dorian (Oil & Gas Journal, 9/10/01), "Those who control the oil routes out of Central Asia will impact all future direction and quantities of flow and the distribution of revenues from new production." The Plaintiffs have enough information to prove in Court before a Jury that the above written statement in an article is the real motive as to why George W. Bush and many others blamed Afghanistan for September 11, 2001. Deep research into what US companies, law firms and persons were rushing after Kazakhstan, Uzbekistan, Turkmenistan and other adjacent nations that have vast reserves of oil and natural gas, that belongs to those nations, has revealed names and actions that are now named defendants in the lawsuit the Plaintiffs are filing against the US government and others.

This was also the real reason for the George H W Bush strategy of "Operation Steppe Shield" as reported by Time in March 1991. Every crime has a motive. The crime of September 11, 2001 involved trillions of dollars of oil and trillions of dollars of natural gas. Missing was the US in control of the TAP to get oil and gas to Gwadar until CPEC blocked what Bush and PM Tony Blair were after.

September 10, 2001: Donald Rumsfeld admits in a Pentagon press briefing that the Pentagon cannot account for \$2.3 trillion dollars. The next day the team of US military and private contractor experts were murdered at the Pentagon.

September 11, 2001: At 8am Larry Silverstein had a scheduled meeting with bomb experts from Fort Monmouth AMC about preventing a terrorist attack on his WTC 7. That meeting was purported set up by the NYC field office of the Secret Service. Since the Silverstein side cancelled the meeting at the last minute, the Fort Monmouth AMC team saw 9-11-2001 unfold from a nearby café. The problem with Larry Silverstein's mythology is WTC 7 was already wired to be destroyed by controlled demolition at approximately 5:20pm.

September 11, 2001: A powerful bomb exploded in the basement levels of WTC 1 North Tower before the alleged hijacked Flight 11 hit the WTC tower. The sinister objective of this explosion was to disable the freight elevators, which are not on the fire alarm system like the 3 banks of passenger elevators and eliminated any ability by NYFD to get to the higher levels to fight that fire, rescue people or evacuate wounded or the dead.

September 11, 2001: A powerful bomb exploded in the basement level of WTC 2 South Tower before Flight 11 allegedly hit the North Tower and before Flight 174 allegedly hit WTC 2. The sinister objective of this explosion was to disable the freight elevators, which are not on the fire alarm system like the 3 banks of passenger elevators and eliminated any ability by NYFD to get to the higher levels to fight that fire, rescue people or evacuate wounded or the dead.

September 11, 2001: A WTC Twin Towers design reality as to the two preceding comments about the freight elevators. The Twin Towers had 3 banks of elevators. One bank went from the ground floor lobby to the 40th Floor. The middle bank went from the ground floor lobby to the 78th Floor. The third bank went from the ground floor lobby to the 81st to 110th Floors. The 79th and 80th Floors were mechanical rooms that serviced heating, air conditioning, electrical, communications, domestic water, fire sprinkler system, etc.

On impact of the alleged Flight 11 on WTC 1, the fire alarm system automatically shut off the elevators servicing Floors 81 to 110. Without the freight elevators that go to all floors, the NYFD was unable to get to the higher floors. On impact of the alleged Flight 175 on WTC 2 on the 78th Floor, all elevators from 41st to 78 and all elevators from 81st to 110th floors were shut off when the fire alarm system activated.

It is a known fact that a NYFD team rode the elevators to the 40th Floor of WTC 2 and then had to walk up to the 78th Floor. NYFD team leader Orio Palmer radioed precinct that there were 2 small fires, and both were containable. Within 1 to 2 minutes after that message, WTC 2 collapsed killing all remaining in the building.

September 11, 2001: ACE Elevator had been given the Otis contract. On the day of September 11, 2001 that company reportedly had approximately 80 employees at WTC and left. They did not help free people that were trapped in WTC 1 and WTC 2 when the jets hit, and the fire alarm system disabled the banks of elevators previously mentioned.

September 11, 2001: The alleged hijacked American Airlines Flight 11, a Boeing 767-200ER, hits WTC 1 North Tower at 8:46am at approximately the 92nd Floor. There was one video that captured the jet all the way to impact, but from a distance it was not possible to identify the jet as being American Airlines or a Boeing 767-200.

September 11, 2001: The alleged hijacked United Airlines Flight 175, a Boeing 767-200, hits WTC 2, South Tower at 9:03am. That will be proven in Court before a Jury to be a colossal lie by the United States government. There is video and still photo evidence that the jet that hit the 78th Floor was a Boeing 737 painted to look like a United Airlines plane. For readers unaware of a 1950's plot involving Cuba named Operation Northwoods, they should read what the CIA and Pentagon plan was to create a war with Cuba.

September 11, 2001: Allegedly hijacked American Airlines Flight 77 allegedly attacked the Pentagon at 9:37am. However, there are both time line discrepancies and flight path discrepancies that are not consistent with provable facts in Court. There is evidence that Flight 77, a Boeing 757-200 did not hit the Pentagon and was nowhere close to the Washington DC – Arlington VA area.

Another extremely problematic matter is who was targeted at the Pentagon and investigation where \$2.3 trillion had disappeared to from the Pentagon coffers.

September 11, 2001: WTC 2 South Tower collapsed at 9:59am. There is now sufficient evidence to prove that WTC 2 was a controlled demolition that required thermitic reactions and powerful bombs to destroy the massive superstructure core that each tower had to be 110 stories tall.

September 11, 2001: WTC 1 North Tower collapsed at 10:28am. There is now sufficient evidence to prove that WTC 1 was a controlled demolition that required thermitic reactions and powerful bombs to destroy the massive superstructure core that each tower had to be 110 stories tall.

September 11, 2001: At approximately 5pm, the BBC announced live on TV “we have just learned that the Salomon Building has collapsed”. BBC reporter Jane Stanley was online live with London. The WTC 7 was visible on that TV announcement and still standing in the background in lower Manhattan.

September 11, 2001: At approximately 5:20pm, WTC 7 was brought down in a controlled demolition. Former NYC employee Barry Jennings, now deceased, is on the record that while he was in

WTC 7 making sure the WTC 7 had been evacuated bombs started going off. He had to walk down many flights of stairs because those bombs took out the elevators and shafts. There are technical reasons why the elevators shafts are taken out before the rest of the bombs are detonated on heavier beams and shaft to bring the building down in a controlled demolition.

September 11-12, 2001: Approximately 1 hour after WTC 7 was destroyed, a flight left Kosovo with crates. Part of the security team were with UNMIK, which is controlled by the US government. Others on the flight did not identify themselves and as to the crates said it was a “Need to Know” matter. When the plane landed the crates were offloaded and transferred to Chinook helicopters and flown into Northern Afghanistan. The destination was an old Russia military base. General Rashid Dostum’s headquarters and home is that old base. The crates were opened to inspect the delivery. That is when UNMIK personnel knew it was hundreds of millions of US dollars. This matter was reported by Karl Schwarz in “Part VI: Pop Goes the Bush Mythology Bubble”. Parts 1 and 2 of that same series revealed colossal conflicts of interests of some of the 9-11 Commission members and why Bush hand picked them for that coverup.

Post 9-11 lawsuits: After 9/11, Securicor, currently named G4S, faced about 30 lawsuits from victim’s families. Another director that Condon supervised at Securicor, former Group CFO Trevor Dighton, said of the company’s liability – “I’m not worried about it one little bit. The two planes involved weren’t those that crashed into the towers – that’s the first thing.”

September 12, 2001: Rumsfeld reinstated the hostile approach for ROE.

September 11-14, 2001: The US Secret Service and the Fort Monmouth AMC bomb experts stayed onsite 3 additional days looking for “unexploded bombs”, when allegedly the WTC towers collapsed due to hijacked jets and minimal fires. Why would the US Secret Service and Fort Monmouth AMC bomb experts be looking for bombs when the alleged hijacked jets and small fires caused the disaster and thousands of deaths in NYC?

September 18, 2001: Anthrax attack, many very ill, 5 dead. Three members of Congress were targeted and certain liberal media voices and reporters. Senator Patrick Leahy (D-VT), chairman Senate Judiciary Committee; and Senator Russ Feingold (D-MN), only US senator to vote “No” on the Patriot Act; and Speaker of the House Tom Daschle (D-SD). Note who Bush appointed in May 2001 to the Fifth Circuit US Court of Appeals and really pay attention reading further.

The FBI had BioPort Vaccines LLC on the suspect list but refused 3 times to add to that list their new owners DynPort Vaccines LLC, Reston VA. DynCorp was busted in the UK and State of Texas for sex trafficking underage females to UK and USA. Some reports estimated up to 200,000 Bosnian and Serbian females after their parents or entire families were killed by USA and NATO in Bosnia and Serbia, so Clinton and NATO could go play Wag the Dog in 1999 and after.

See May 2001 regarding Bush appointment Priscilla Owens. Here confirmation hearing was intentionally delayed by Senator Leahy. Also, see August 2003 and September 9, 2003.

September 11 – October 7: When it was apparent to former Vice Chairman of House Armed Services Curt Weldon that Bush intended to launch military action against Afghanistan, Mr. Weldon took a delegation to Rome to meet with the exiled King of Afghanistan Mohammad Zahir Shah. The NY Times reported on October 1, 2001 that 11 members of Congress and representatives of anti-Taliban Northern Alliance attended that meeting to seek approval from the warlords that the US could come into their nation peacefully. Note in previous text and especially the assassination of Pashtun Ahmad Shah

Massoud on September 9, 2001, the most powerful warlord in Afghanistan and the Kosovo flight mentioned at September 11-12, 2001.

It is doubtful that former highly respected Congressman Curt Weldon's effort had positive results for 2 reasons. First, the most powerful and respected part of the Northern Alliance was Pashtun "Lion of Panjshir" Ahmad Shah Massoud. The US assassinated him on September 9, 2001, just 2 days before September 11, 2001. Massoud had made it clear that the United States was not welcome in Afghanistan. Secondly, see November 25, 2001 below. The CIA Special Activities Division was rounding up anyone in Afghanistan that would or was resisting US presence in that nation. Bidas Corporation was welcome, the United States was not.

October 7, 2001: The US and UK attack Afghanistan with September 11, 2001 as the excuse. At a minimum the US had been practicing, provisioning, and moving war support equipment to US bases close to Afghanistan most of 2001 all the way to September 11, 2001.

November 22, 2001: The following is in the Schwarz book published in 2004. It was both in the text, the footnote and even the footnote was a copy and paste so the United States could not delete it as the truth it is.

The following is copied and pasted from the Schwarz book (January 2004) as it appeared in a foreign newspaper and in the book, Chapter 3, pages 88-89. The link to this article was blocked on the Internet shortly after it was published and was posted on the newspaper website in English:

11:01 2001-11-22

Bin Laden: Not all Americans are bad

"Mohammed Omar predicted the current campaign by the USA in Afghanistan 5 years ago, claiming that when the Taliban would not allow the US to build a pipeline they will begin to attack us, justifying it with Bin Laden. [Plaintiff's notice to the Court is those 5 years leading up to September 11, 2001 is when Bidas Corporation was under full assault from multiple US and Saudi parties to block the Bidas SAPIC TAP.] [emphasis added].

Omar's words are reported by Hamid Mir, who made the last interview with Osama Bin Laden, who declared that he is not against the American people, only the politicians and the state.

In the first interviews, Osama Bin Laden had declared himself against all the American people, but he had changed. He admitted that there were many good people in the United States and it was the politicians and State, which he despised. He told Mir that he had seen many western people on television protesting at the bombing in Afghanistan and concluded, "They are good people. They are not Moslems, but they condemn the bombing".

November 25, 2001: The first claimed US casualty in Afghanistan was Johnny Micheal Spann, former US Marine, joined CIA Special Activities division. He was reportedly killed in a prison uprising. However, combat engagements with the Taliban by Green Berets, 10th Mountain and CIA Special Activities Division happened weeks before this alleged "first US death in Afghanistan".

December 2001: The Enron collapse was a major accounting scandal that led to the bankruptcy of Enron Corporation in December 2001, revealing widespread fraud and unethical financial practices. This scandal resulted in significant financial losses for investors and employees, and it prompted new regulations like the Sarbanes-Oxley Act to improve corporate governance and financial reporting standards.

After Unocal withdrew from the Unocal and Saudi controlled Delta Oil, interference of contract aimed at Bidas Corporation that led to a series of lawsuits in Texas courts, US District Court SD Houston and eventually Fifth Circuit US Court of Appeals, the Bush Administration was urgently trying to get a Hail Mary done with ENRON as the “US energy giant” to step forward. See February 2003.

December 31, 2001: President Bush appointed a former aide to Unocal, Afghan-born Zalmay Khalilzad, as special envoy to Afghanistan. The nomination was announced nine days after the US-backed interim government of Hamid Karzai took office in Kabul.

Early 2002: China and Pakistan sign the CPEC agreement and China commences construction on the Gwadar Port improvements. It would take court orders and Pentagon compliance to admit that George W. Bush had a “war planning team” evaluating ways to take that port back from China and so the US could have it.

February 8, 2002: Afghanistan's interim leader Hamid Karzai said he and Pakistani President Pervez Musharraf had agreed to revive a plan for a trans-Caspian gas pipeline from Turkmenistan to Pakistan. That plan is what Bush intended to steal from Bidas Corporation will military force.

December 27, 2002: Central Asia pipeline deal signed; An agreement has been signed in the Turkmen capital, Ashgabat, paving the way for construction of a gas pipeline from the Central Asian republic through Afghanistan to Pakistan. Note for the record, the ocean terminal end of that pipeline was to be Gwadar but had been blocked by CPEC.

November 14, 2002: PANY&NJ appealed the May 17, 2001 decision by US District Court, Newark NJ to Third District US Court of Appeals in Philadelphia and lost the appeal on this date. Note the PANY&NJ is based in NYC, which is under Second Circuit US Court of Appeals in Connecticut, and New Jersey is under Third Circuit in Philadelphia. What was odd about this appeal is PANY&NJ used in-house attorneys again rather than retain experienced counsel in such matters. However, this was way too late to stop what George W. Bush and former PM Tony Blair did to Afghanistan commencing October 7, 2001.

February 23, 2003: OPIC agrees to fund the pipeline and Bush has guaranteed to protect it with U.S. troops (without telling the United States citizens). “23-02-03 Turkmenistan, Afghanistan and Pakistan (TAP) have signed a protocol for trans-Afghanistan Gas Pipeline Project... However, some recent reports had indicated that the United States was willing to police the pipeline infrastructure through permanent stationing of its troops in the region. The US ExIm Bank, the Trade and Development Agency (TDA) and the Overseas Private Insurance Corporation (OPIC) had also shown readiness to finance such a project, if leading American energy giants come forward.

February 2003: Bush announces in the State of the Union address to Congress his “Project BioShield”. By the end of 2003, a compliant Congress had created and passed the law enabling Project BioShield. The initial intent was to force vaccinate up to 10,000,000 First Responders for smallpox and anthrax, even though neither of those illnesses are anywhere in the United States. Later the intent was to force vaccinate all Americans with the same vaccines that are known to be harmful to humans. Only about 38,000 First Responders accepted the Project BioShield concept. The health outcomes have not been good for many of them.

March 2003: Based on fabricated intelligence and political lies, the Bush Administration and the Coalition of the Willing attacked Iraq in an illegal war of aggression. It can be

proven in Court before a Jury that Iraq was in discussions with other nations to co-develop its 4th largest known oil and natural gas reserves in the world.

September 9, 2003: Bidas prevails at 5th Circuit, U.S. Court of Appeals after years of being jerked around in Texas courts. \$495 million arbitration award upheld. This appeal was from US District Court SD Houston. Note for the record, Mayer Brown represented the Turkmenistan parties that went from state court to federal court seeking to vacate the arbitration award, and senior partner Richard ben Veniste is handpicked by George W. Bush to sit on the 9-11 Commission with that glaring but unreported conflict of interests.

February 2004: Canada Prime Minister Stephen Harper refused to send Canadian troops to Iraqi Freedom. As a NATO member, neighbor of the USA, Canada has sent troops into peace keeping missions or combat when asked to do so by the United States but declined to join in March 2003.

Direct from Canadian military sources including both soldiers and military medical doctors the reason was clear when the people were contacted and asked the right questions.

Of all the Canadian soldiers sent into Desert Storm in 1991, and came home without being injured or killed in combat, those who were forced to take the CBW vaccines mandated by the US Pentagon the statistics were both glaring and alarming. For those injured only by vaccines, most were seriously disabled, many in the range of 50% to 100% or had died. PM Stephen Harper was not willing to make the same mistake again based on US lies and demands that have devastating long term affects.

March 22, 2004: U.S. Supreme Court denies Writ of Certiorari, upholding 5th Circuit. State Concern Turkmenneft v. Bidas, 03-1018 (Remember, Unocal / Delta (Saudi owned) started this blockade, aided by Clinton and Bush Administrations and Texas judges. Also, in bed with Amerada Hess [Delta / Hess] in the Caspian Sea east of Azerbaijan and Amerada Hess CEO Thomas Kean is handpicked by George W. Bush to chair the 9-11 Commission.) Note that the Mayer Brown law firm represented Turkmenistan and Turkmenneft in US District Court, Southern Division Houston and at Fifth Circuit US Court of Appeals, shared offices in the Uzbekistan capital with ENRON, and created the SPE's that were used by ENRON in accounting fraud and its collapse, plus Senior Partner Richard ben Veniste was handpicked by George Bush to sit on the 9-11 Commission.

2004: In 2004 it was revealed that the Pentagon's Office of Special Plans was literally The Lie Factory to create false justifications to attack Iraq in 2003 in yet again an illegal war of aggression.

Iraq, WMD lies, Imminent Threat lies, Saddam – Al Qaeda lies, The Office of Special Plans at the Pentagon, aka: The Lie Factory.

http://www.motherjones.com/news/feature/2004/01/12_405.html

October 13, 2004: Karl Schwarz sends a Demand for Truth facsimile to George W. Bush.

<https://rense.com/general58/demand.htm>

Dec 1994 to August 1996: Chechnya War 1: The following statement about this war is not entirely true as Western governments try to control the narrative, how history is written as a finger pointing political and media blame game. During the Clinton Administration, the First Chechen War occurred from December 11, 1994, to August 31, 1996, between the Chechen Republic of Ichkeria and Russia, primarily over Chechnya's desire for independence following the collapse of the Soviet Union. The

conflict resulted in significant casualties and destruction, with estimates of civilian deaths ranging from 20,000 to 100,000.

Simple research reveals that one of the enemy combatants against the new Russia Federation was UNA-UNSO. That is the Neo-Nazi group from Ukraine that the CIA has been in bed with since way back into World War 2 as US Army OSS, and when CIA was created in 1947 has continued to this day. In fact, the Ukraine SBU, sort of their Neo-Nazi Gestapo most responsible for the carnage in Donbas shares office in Kiev with the US Central Intelligence Agency.

When Karl Schwarz started reporting that fact, Wikipedia has now modified their website to exclude UNA-UNSO but both Chechnya and Russia Federation can verify that to be true. Many of that Ukraine Neo-Nazi group were killed in Chechnya. Another combatant group involved Doku Umarov. His name comes up again regarding Kiev Maidan below.

UNA-UNSO was headed by Dimitro Yarosh, who was a key antagonist and speaker at Kiev Maidan when that “regime change” happened. Its current name is Right Sektor, the current Neo-Nazi government in charge in Ukraine. See Kiev Maidan 2013-2014 for further details.

2006: China completes the Gwadar Port and it is inaugurated early 2007. Intermittently, the CIA has waged covert wars in Iran to block the IPI (Iran, Pakistan, India pipeline) and within Pakistan itself to block CPEC. That has included US sponsored terrorism aimed at disrupting the roads and rail corridors that are part of CPEC all the way from Gwadar to China.

2006: About 1 year after the December 2004 release of “One Way Ticket to Crawford Texas”, a man contacted Schwarz with important information. He was formerly the official photographer for World Trade Center. He was in the offices of Emory Roth & Sons Architects in WTC 1 when federal agents came and confiscated all plans and specifications for the WTC complex, Buildings 1 through 7. Further details on this will be presented to the Court and Jury.

2006: Around 18 months after the 2004 release of “One Way Ticket to Crawford”, Schwarz received a phone call from an air traffic controller that stated they were on duty at Boston Logan International Airport. This person stated they had been threatened with job, health care, pension and even up to death if they disclosed what was on the radar screens. Further details on this will be presented to the Court and Jury.

What was stated clearly and professionally was that both Flight 11 and Flight 175 took off 16 minutes apart and headed towards Europe. Both flights disappeared from radar at almost the exact split second. Even if the transponders had been turned off, both would have still been visible on radar.

Another matter that was discussed in detail was direction travel towards the Great Circle Route to Europe, which is headed away from NYC and distances each plane was NE of Boston. Unless capable of “Mach 1 speeds”, which Boeing 767 jets cannot do, neither Flight 11 nor Flight 175 could have possibly been what hit WTC 1 or WTC 2.

This person made the phone call from another state from a friend’s landline because they knew their mobile phone and home phone were probably tapped.

March 2006: While in prison awaiting trial, Slobodan Milosevic dies after suffering a fatal heart. When the ICC finally got around to doing on the ground research in Bosnia and Serbia, many interviews, the discovery of mass graves of Christians, he was posthumously found to be innocent. Some of the Muslims and Christians informed the ICC that the US had armed Muslims to kill Christians and is

how Afghan Zalmay Khalilzad earned the nickname “The Butcher of Bosnia”. Official US statements on this matter is a former Serbian general is now referred to by that nickname as “The Butcher” to hide US complicity in genocide, without acknowledging that Milosevic was found innocent as well as those who served to defend Christians in Bosnia and Serbia.

April 21, 2006: Even after Bridas prevailed at Fifth Circuit US Court of Appeals, defendant Turkmenistan and their lawyers Mayer Brown sought a second time in US District Court SD Houston to vacate the \$495,000,000 arbitration award and were struck down by Court order in favor of Bridas. Turkmenistan and Mayer Brown lost. The PANY&NJ covered up the asbestos problems, the FBI covered up their complicity in the February 26, 1993 bombing of WTC 1 North Tower, the CIA hid their illegal activity inside the United States with Saudi GDI recruiting radical Islamists that had never flown a jet and did not on September 11, 2001.

<https://www.ca5.uscourts.gov/opinions%5Cpub%5C04/04-20842-CV0.wpd.pdf>

2006: The Bush Administration and Congress collaborated on the creation of BARDA, the Biological Advanced Research & Development Agency as a biological mirror of DARPA. This law created a new position at the DHHS as Assistant Secretary for Preparedness & Response (ASPR). That has been staffed with military people since inception and the ASPR has pre-emptive military authority to take over US health care and response to a declared emergency.

July 2008: The Pentagon, some elements of NATO, the nation of Georgia itself and a Ukraine Neo-Nazi light armored brigade conducted war games in Georgia that ending July 31, 2008. There is no land route for the Ukraine group to have gotten to Georgia, so it is logical that the United States probably gave them a ride, so they could participate and kill Russian passport holding South Ossetians.

August 7, 2008 During the night of August 7, Georgian gun boats attacked a Russian freighter on the Black Sea. The Russian navy destroyed the gunboats. People should read a map and do some research that Abkhazia is on the border of Russia Federation near Sochi. In 1992, Abkhazia voted to remain aligned with Russia, not the EU, NATO or US. Additionally, the peoples of South Ossetia voted in 1992 to remain aligned with Russia Federation. A simple read of a map reveals that just north of South Ossetia are their ethnic kin in North Ossetia Russia Federation. South Ossetia is about 25km from where the Bush Administration was trying to force through Pipeline Route B since the US already knew they were both blocked by CPEC and defeated by the Taliban in Afghanistan well before the illegal war of aggression inflicted on South Ossetia, a part of the Russia Federation by their choice.

August 8, 2008: Shortly after midnight of August 7 to 8, the nation of Georgia, the Ukraine Neo-Nazis, PMC mercenaries representing USA, and others opened fire on South Ossetia killing +2,200 people. A little more than 1 week prior to this happening, Schwarz was on a US radio show and predicted that the Bush Administration would try a Plan B Pipeline route and it might be through Georgia. That was because due to CPEC, the Bush agenda was blocked by Pakistan and China regarding the Port of Gwadar. Additionally, Schwarz had written an article titled “Operation Dagestan” as to how many times the United States had tried to regime change that nation’s alignment with Russia Federation as an autonomous republic. The US has tried the exact same in Chechnya.

Apparently, the United States had planned the July war games and left behind a lot of military equipment and ammunition for this assault on South Ossetia. Abkhazia was also assaulted but not to the extent South Ossetia was. One of the Bush and US objectives was one of the main ports in Abkhazia that was to be 1 of 3 had the plan succeeded to route oil from the Caspian Basin region to the Black Sea and beyond.

For those readers that never knew or do not have good memories, the Bush Administration reactions were:

Condoleezza Rice as Secretary of State rather than National Security Advisor: “Russia is an outlaw.” Several members of the House and Senate acted as Mynah birds on what Rice and Bush were saying.

Bush had the audacity to state: “Nations are not supposed to attack other nations in the 21st Century.” That was even though he attacked 3, Afghanistan, Iraq and last South Ossetia. It is a known fact from multiple sources that Bush – Cheney came into office in 2001 fully intent on regime change in 7 nations over 5 years. That game plan was totally derailed by the Taliban and the Iraqi Resistance.

Schwarz wrote several articles about this flare up in Georgia v South Ossetia that prompted the OSCE to call him asking for more details to verify that it was not Russia that was the aggressor. After that investigation, the OSCE informed Bush and Condoleezza Rice that their lies would not be listened to and OSCE would put its own people on the ground to get at the truth.

If people would do the research and pay attention, during Chechnya War 1, even Dagestan, Russia Federation was attacked, and the regime change attempt failed multiple times. Dagestan Russia is just East of the nation of Georgia and no pipeline is coming across there without the approval of Russia Federation and Dagestan. It never seems to dawn on Washington DC to change abhorrent policies.

August 1999 – April 2000: Chechnya War 2; Main phase: 7 August 1999 – 30 April 2000, (8 months and 24 days)

Insurgency phase: 1 May 2000 – 16 April 2009, (8 years, 11 months and 15 days). Note that this involved both Clinton and Bush Administrations as US sponsored terrorism while pretending to be fighting terrorism.

After Chechnya realized that it was the CIA and their proxies that were stirring up the problems, in Chechnya War 2 that region aligned with Russia Federation and they won the war. However, as revealed at Kiev Maidan 2013-2014, it was about to start again as an overall “anti-Russia agenda” by the United States.

2012: The Obama Administration pushed hard on the nation of Georgia to locate the Richard Lugar Lab in 2012. That is a US bioweapons lab close to Russia and located at near the capital city of Tblisi. A Bulgarian investigative reporter named Dilyana Gaytandzhieva has reported on this lab many times. She has talked to persons that were seriously harmed with drug testing on them, and has talked to relatives of persons that died at Richard B Lugar Lab. Those coming and going to this lab carry diplomatic passports and even drive diplomatic license plate cars to keep the bioweapons research from being touchable by the government of Georgia. Due to what is revealed at February 24, 2022, the same has been happening across much of Ukraine.

2012: William F. Browder, Hermitage Capital. The grandson of former President of US Communist Party, who was also a Communist candidate for President of the United States. Browder renounced US citizenship and now holds a UK passport. He, Sergey Magnitsky, Hermitage Capital, and others were caught conducting illegal activity in Russia Federation.

<https://rense.com/general83/schem.htm>

Due to that article, Schwarz was interviewed by the owner of Russia Hour TV, Alexander Korobko for over 2 hours on the record on May 17, 2014 in Zurich. Mr. Korobko’s office is in London. That interview aired in Russia in 2 parts with subtitles in Russian.

2012: Magnitsky Act 2012. This is a preposterous law by the Obama Administration and Congress. William F. Browder and his partner in crime Sergey Magnitsky were caught violating Russia Federation law, which the US government has no say over whatsoever. This law was used by the US and EU as “anti-Russia” and sanctioning Russians for no reason and no jurisdiction over them whatsoever. The Magnitsky Act should be abolished due to being beyond the jurisdiction of Washington DC.

2012: Smith Mundt Modernization Act 2012. This law has basically allowed the US government and media to lie to Americans with impunity without any repercussions. It should be abolished.

2013-2014: Kiev Maidan 2013-2014. The previously mentioned Dimitro Yarosh, head of UNA-UNSO, now the Neo-Nazi Right Sektor government in Ukraine, full aided and abetted by the CIA since 1947, urged his co-terrorist Doku Umarov to initiate the terrorism inside of Russia again. Yarosh was one of the key architects of Maidan per CIA and US directives and he spoke that night when Maidan had succeeded. His photo is in the article link below.

The FSB must have been listening because Doku and his CIA proxy friends were located and eliminated by the FSB. They were hiding in the Caucasus Mountains very close to the Russia Federation Border.

<https://rense.com/general96/neoconslime.html>

<https://rense.com/general96/moreneocon.html>

2014-2022: The Obama Administration via the Pentagon and hidden on their budget by the NDAA installed many illegal bioweapon labs in Ukraine. Reported 14 total and other sites totaling 46 were seized by Russian airborne troops on February 24, 2022. The US Embassy in Kiev had posted 9 documents about such labs and showed the names of Pentagon and the contractor Black & Veatch. Those were immediately removed when Putin took action and the US Embassy claimed, “Russia disinformation”. When Washington DC was open for business 7 hours later, the same claim was made by Washington.

2016 to 2021: Former DEA agent Donald C. Canestraro investigated and extensive interviews with all living CIA and FBI agents that were involved in Alec Station purportedly hunting for Osama bin Laden, CIA counterterrorism and FBI counterterrorism on behalf Military Commissions.

His 774 lines, multiple page Declaration is very revealing. The Plaintiffs will be seeking some key matters under court ordered discovery including a document designated as “AE827”. There are many instances in the declaration such as “CS” for confidential source as FBI, or “HHH”, “VVV” etc. that appear to be CIA names he did not disclose but knows who they are.

February 24, 2022: Ukraine labs MetaBiota and Battelle Corporation. On the same day Russia Federation President Vladimir Putin launched the SMO (Special Military Operation) at Neo-Nazi Ukraine, the Ukraine Military HQ and Ukraine SBU, sharing offices with the CIA, issued an order instructing the destruction of all records showing Ukraine affiliation with MetaBiota and Battelle Corporation. Hunter Biden is, or was, the largest single shareholder of MetaBiota. Battelle is a CIA contractor and runs all illegal bioweapon labs. It was George W. Bush that handed over control of all such labs to Battelle during his administration. He also tripled the number of US labs under the pretense of counterterrorism.

Russia seized a lot of evidence before safely destroying the labs. There were 310 pages of evidence submitted to the UN Security Council demanding a full and immediate investigation. Either individually or collectively, the US, UK and France have vetoed such an investigation. All three have been major antagonists and aiding and abetting Zelensky and Neo-Nazi Ukraine.

This sort of illegal activity is focusing on what PNAC recommended in the 2000 “Rebuilding America’s Defenses”.

2025: During the second Trump Administration, Elon Musk and others were tasked with tracking where did the USAID send all of the money? It was disclosed that USAID sent two large amounts of \$300,000,000 and \$330,000,000 to “Afghan farmers”. The real purpose of those funds was to increase poppy fields for heroin production.

Consider the foregoing facts, especially that the CPEC by 2002-2006 had totally blocked the Bush reasons for blaming Afghanistan for a crime in USA known as September 11, 2001 that they had nothing to do with. Consider that the US should have never stayed until 2022 raising heroin and pretending to be fighting terrorism and defending America.

When the Taliban prevailed, regardless of what you believe about them as fact or US propaganda pushed at you, all of the poppy fields were destroyed, and Afghanistan via the CIA was no longer supplying the world with heroin from their nation. Shame on USA and CIA for that crime.
